RESEARCH

AWARENESS

ADVOCACY

SUPPORT

Dear Valued Supporters:

We are excited to announce the details for The Bee Foundation For Brain Aneurysm Prevention's 2024 HoneyBash Gala taking place on Saturday, November 2nd, 2024 at the Pump House - Ironworks Pencoyd Landing. This iconic event brings together key leaders in the Brain Aneurysm field, corporate sponsors and benefactors, awareness advocates, survivors and their families. All of whom are dedicated to ending the devastation caused by this disease. Each year we strive to make the HoneyBash Gala impactful, and entertaining. This year, Ironworks serves as the backdrop as we share cocktails, fine food and an opportunity to take home some incredible auction items! We will celebrate the great advancements in Research, Awareness, Advocacy and Support with an award ceremony honoring the TBF Preventative Research Grants.

This year the 2024 Gala is dedicated to the development of brain aneurysm best practices in the areas of identification, treatment & recovery. We will honor the advancements that have taken place in each of these areas and identify the opportunities for improvement that will lead to greater public awareness and more lives saved. All proceeds will support the TBF Best Practices Program and the Emergency Education Fund supporting the education of health care professionals in the early identification of brain aneurysms.

Come witness the strength of the TBF Community that starts with the courage to use our own voice to advocate for ourselves, or families and our community.

Thank you once again for your support and consideration. We have structured our 2024 sponsorship package in a way that we hope allows everyone to participate in a meaningful way that suites their needs and interest.

We hope to see you on November 2nd for a memorable evening in honor of those who have suffered from this deadly disease.

Thank you in advance for your support!

Sincerely,
Erin Kreszl & Christine Kondra
Co-Founders

“Increased research & awareness is critical to preventing this drastically underfunded deadly disease.”

IRONWORKS AT PENCOYD LANDING

Established in 1852 as a specialty iron and steel foundry, Pencoyd Ironworks was one of the largest producers of structural iron and steel creating some of the most iconic structures in America.

This year's sponsorships reflects on the contributions each of these structures made on the growth and progress of our cities.

We invite you to join the strength of the TBF community to make notable progress in the prevention of brain aneurysms.
